Prepp IAS

Hi, I am Garv Garg and I secured AIR 192 in UPSC CSE 2025.

During my preparation, a key focus for me was ensuring that my efforts translated into consistent improvement.

At Prepp IAS, detailed and objective feedback from my mentor Ekta Ma'am helped me clearly identify areas that required focused attention. Her approach of analysing incorrect questions and understanding the underlying reasons behind them enabled me to work in a more targeted and efficient manner.

This also made revision of weaker areas much more streamlined, especially in the final phase before the exam.

Additionally, the emphasis on PYQs, along with guidance on converting them into concise notes, proved to be highly useful during the actual examination.

These constent, incremental improvements made a significant difference over time.

Thanking Prepp IAS
